REGARDING DRIVEWAY.

For shipping, receiving and delivering freight, a roadway in the rear of lots 1, 2 and 3, as shown on diagram, twenty feet wide and not less than fifteen feet in height, in the rear of lot 1, and also the 20 feet by 75 feet of the west portion of lot 5, may be used for building purposes for basement and upper stories by purchasers of said lots 1 and 5 respectively. The portion of said roadway in the rear of lots 2 and 3 shall not be built upon, but shall remain open, furnishing light and air to the said lots 1, 2, 3 and 5. The deeds to the purchasers of said lots shall contain suitable provisions protecting them in the joint use of said roadway.

HUMBERT'S AMITY.

Minister Potter Assured of Italy's Friendly Attitude.

TWO-FOLD BENEFIT OF EMIGRATION TO AMERICA.

Pilgrims to the Papal Jubilee to Be Well Received—Movement for Canadian Independence Taking Definite Form—New Theory Concerning the Origin of Cholera—Foreign News.

ROME, Dec. 30.—Mr. Potter, the American Minister, had an interview with Sig. Brin, the Minister of Foreign Affairs, before being received by King Humbert. Sig. Brin took occasion to congratulate Mr. Potter on the felicitous relations between Italy and America, and the happy settlement of all difficulties that had formerly existed. The subject of immigration restrictions was not touched, the interview being of a formal and introductory character, but it is reported that the Italian government is extremely concerned about the measures already taken and contemplated in regard to the restriction upon immigration to America. Although not openly avowed, it is understood that this solicitude is largely, if not chiefly, of a financial character, as Italy received a very large inflow of money from the emigrants in America, and a stoppage of the traffic would have a seriously appreciable effect. Thousands of the Italians who have become affluent in America have returned to Italy and helped to increase the prosperity of the various Italian provinces. The constant current of going and returning emigrants has a beneficial effect in Italy, besides the financial, as the returning emigrants have usually become enlightened by their contact with American civilization, and make better Italian subjects. This is a very important matter to those districts of Southern Italy and Sicily where the native population has been all suffering from centuries of despotic oppression. In Northern Italy the emigration question is not so pressing, as there is believed that Italy will demand that at least no discriminations shall be made against Italian immigrants to the United States, but that they shall be treated on a par with other immigrants.

In the interview between Minister Potter and Sig. Brin no reference was made to the New Orleans cholera epidemic. The incident was considered amicably settled. The Vatican has been informed that at a recent council of Italian Ministry it was decided to take special measures to protect the pilgrims coming to Italy on the occasion of the jubilee of Pope Leo, who was proclaimed as Archbishop of Damietta Jan. 28, 1848. It is expected that about 40,000 pilgrims will visit Rome to attend the celebration in honor of the fiftieth anniversary of the Pontiff's admission to the episcopal dignity. Of these it is expected that not less than ten thousand will be from the United States. The people of Rome, irrespective of their prejudice for or against the Pope, are anxious to see as many as possible, and it is anticipated that the sum of money deposited in the city, whose trade is depressed, will be considerable. The government is desirous of having it that ample precautions will be taken to insure the security of all who come, and that there will be no repetitions of the scenes which attended the French pilgrimage to Rome.

The government of Italy has appointed a commission, headed by Senator Fianale, to inspect Italian banks.

BRITISH TOPICS.

RAID OPPORTUNITY OFFERED TO RELIGIOUS BIGOTS.

LONDON, Dec. 30.—Lord Mayor Knill is about to pay a visit in state to Lord Mayor Meade of Dublin. On Sunday both the officials will go in procession to the Roman Catholic Cathedral, where they will attend mass. Lord Mayor Knill's religious belief has been and still is a thorn in the side of certain Protestant bigots, and this state visit to the Lord Mayor of Dublin will afford them fresh

opportunity to attack the Church of Rome, which they regard as being engaged in the work of undermining British institutions. The wall of the offices in Exchange Court, Dublin, the scene of the explosion on Saturday last, have been found to have been so badly damaged by the shock of the explosion that the buildings are not believed to be habitable. At midnight last night it was feared that the walls of the detective office would fall. Detectives who were asleep were hastily awakened, and everybody left the building as quickly as possible. This morning the walls are being shored up, and an examination will be made to decide whether they can be repaired. There are no new developments in the case, and no clue has been found to the perpetrators of the outrage.

SOUTH AMERICA.

BALMACEIDA'S FOLLOWERS RETURNING TO THEIR ALLEGIANCE.

VALPARAISO, Dec. 30.—Minister Barros Luco, in a circular to the Intendentes of the various Chilean provinces, says that inquiry proves the thorough loyalty of the troops. They had no intention of joining a revolutionary movement. A number of ex-officers of Balmaceda's army have sent letters to Gen. Baquedano—At Arica, and Arica, in which they say they are anxious in every way to promote peace throughout the country, to act in harmony with the present authorities, and that they have no desire to foment disorder. The letters have been sent to the Minister of War. As a result of the letters it is probable that a general amnesty bill will pass Congress. News from Brazil to the effect that an alliance, offensive and defensive, had been arranged between Chile and Brazil created intense excitement in Buenos Ayres. The papers in Buenos Ayres, in commenting upon the treaty, say that it is not in accord with Chile's peaceful pretensions. The situation in the Province of Corrientes is critical. The revolutionary party is gaining strength constantly and a conflict between them and the government troops is expected in a very short time. Trouble is also feared in the Province of La Plata.

DOMINION AFFAIRS.

CHEERS FOR PRESIDENT HARRISON WERE THE HEARTIER.

MONTREAL, Dec. 30.—At a dinner of the Dominion Commercial Travelers' Association last night at the Windsor the toast of the President of the United States met with far heartier applause than that of the Governor-General of Canada. United States Consul-General Knapp responded to the toast and in a speech on friendship between Canada and the United States spoke of the feeling of friendship the West had for Canada, and called on Canada to deepen the St. Lawrence and its canals so that Montreal could be the entrance to Chicago, the inland port of the world.

First Premier Mercier left for New York last night on route to Rome. To a reporter Mr. Mercier said that on his return he would enter actively into the crusade for the independence of Canada. Asked if he was not in favor of annexation to the United States, he said he was not prepared to answer that question. All things must have a beginning, and in his eye at present independence was the fittest and grandest destiny for Canada.

At a meeting of a number of the leading citizens held here last night it was decided to form a Canadian National League to promote national sentiment. A large number gave their support.

GENERAL FOREIGN NEWS.

NEW THEORY CONCERNING THE ORIGIN OF CHOLERA.—St. PETERSBURG, Dec. 29.—Prof. Nensky has expounded a new theory of the origin of cholera before the Russian Medical Society. Dr. Blotstein, finding that he could not produce cholera by the injection of Koch's comma bacilli, sought for and found two new organisms peculiar to Asiatic cholera. The disease invariably follows an injection of three varieties of organisms, and it is regarded as possible that inoculation with these organisms will give immunity from the disease.

The younger members of the cholera commission are indignant at the farcical proceedings of the commission. They declare that their time was wasted, the old medical officials regarding reports praising the beneficence of the government and indulging in fulsome flattery of nobility.

FIVE NEW CASES.—HAMBURG, Dec. 29.—Five cases of a disease suspected to be cholera have been discovered

among the troops stationed here. Soldiers belonging to neighboring garrisons have been forbidden to visit Hamburg. Two deaths from cholera have occurred in Altona, a suburb of this city. The Ministry of the Interior has issued a notice severely censuring the public disregard of a possible recurrence of cholera and insisting that it is imperative that every suspected case be promptly reported to the Board of Health.

A PLEA FOR MERCY.—BERLIN, Dec. 30.—The heads of the Jewish community contemplate sending a petition to the Emperor on the anti-semitic excesses, considering that the Constitution guarantees equal treatment to Jews and Christians. It is difficult to see what the Emperor could do to Chancellor Von Caprivi's outspoken denunciation of the anti-Jewish excesses. Emperor William conferred yesterday with Chancellor Caprivi, the Minister of War and the Chief of the Military Cabinet. It is reported that the conference was in reference to possible concessions on the military bill.

SWISS TARIFF INCREASED.—LONDON, Dec. 30.—The Swiss tariff on cycles, nickel-plated articles, baskets, cigars and cigarettes imported from France have been doubled, while the tariff on many French articles, such as cotton, silk goods, clothing and cheese have been trebled, and in some cases quadrupled.

FRANCHISE AT AUCTION.

Underground Transit Goes to the Highest Bidder.

NEW YORK, Dec. 30.—The auction sale of the Underground Rapid Transit franchise took place yesterday afternoon on the City Hall steps. Mr. Eugene L. Bushe, one of the Rapid Transit Commissioners, made the sale. In drawing up the terms of today's sale, care was taken that it should not necessarily be final. W. N. Amory bid \$500, and one-half of 1 per cent of gross receipts during the operation of the road for the whole term, payable to the city, which he estimated at \$50,000 a year. On a total of \$50,000, Mr. Amory was employed by the Rapid Transit Commissioners to get the consent of property owners along the proposed route. It is not known positively whom he represented in the matter. Mr. Bushe did not consider the bid in accordance with the terms of sale, but said he would hold it under consideration. Mr. Amory then increased his offer to \$1,000 cash. This was also taken under consideration. No other bid was received.

Corbett Wants a \$75,000 Purse.

NEW YORK, Dec. 30.—It transpires that Corbett's manager, Brady, and a representative of the Crescent City Athletic Club met on Broadway last night and the Southerner inquired how large a purse Corbett would fight Mitchell for.

"For as much as he can get," replied Brady.

"Well, the Coney Island Athletic Club has already offered \$50,000 for the contest, and I suppose if we want it we will have to bid \$50,000," said the Crescent City man.

"Well, you might have to go a few paces higher," Corbett wants a \$75,000 purse.

"Will you sign now?" asked the New Orleans matchmaker.

"I will sign now," said Brady as they parted.

Army Chaplains Organized.

MILWAUKEE, Wis., Dec. 30.—Commander-in-Chief of the G. A. R., A. G. Welleser, yesterday issued general order No. 4. He announces the formation of a national association of ex-army and navy chaplains, of which Gen. H. H. Hays, of St. Louis, is President. He also calls attention to violations of the rule prohibiting the naming of posts after living persons. Regarding the decoration of graves of Union soldiers, within the Southern States, it is announced that Quartermaster-General John Taylor of Philadelphia will receive commissions for funds for the purchase of supplies for the decoration of such graves, the local posts in most cases being unable to provide the required means.

IN SCULLIN'S HANDS

The Street Railway Manager Carries Out His Pooling Scheme.

HE SAYS HE HAS GOT THE BENTON-BELLEVILLE ROAD.

James Campbell and Ed Butler Have Not Sold, But Their Company Is Being Consolidated With the Union Depot and Mound City—A Gigantic Transfer Scheme.

The reports of the purchase of the Benton-Bellefontaine Street Railway by Manager John Scullin from James Campbell and Ed Butler were the absorbing topic of conversation to-day in legislative and financial circles. They interested the Assemblymen, because they are now considering the bill by which the plans of the new railway pool are to be carried out and the brokers are concerned, because the new deal makes the stock of all the roads known as the "Scullin lines" much more valuable than it has been, and that is saying a good deal.

Among business men to-day the story was at first discredited, the change seeming to be too sudden, and the brokers knowing that men do not toss street railways from one to another like apples, with no warning save an exclamation of "Catch it!" This feeling of disbelief, however, was dissipated, as the truth began to come out later in the day and President Scullin finally set all doubts at rest about noon by announcing that the Union Depot, Belleville and Mound City lines were to be consolidated under the name of the "Union Depot Railway Co."

Last Tuesday afternoon President Scullin appeared before a secret session of the Railway Committee specially appointed by the House of Delegates to consider his bill, and James Campbell and Ed Butler, Chairman of the Union Depot Railway Co., gave the committee to understand that they had agreed to sell the Union Depot Railway Co. to the city of St. Louis.

The right to acquire the stock of the Benton-Bellefontaine and Mound City lines at any time within three years, and provided that upon the acquisition of the stock by the city, the city should acquire the rights and privileges granted to the other companies by the street railway laws of the city of St. Louis.

The amendment further provided that as soon as the city should acquire the stock of the Benton-Bellefontaine and Mound City lines, the city should acquire the rights and privileges granted to the other companies by the street railway laws of the city of St. Louis.

"THE MESSIAH"

The Choral Symphony Society Scores the Greatest Triumph in Its History.

The annual holiday rendition of the "Messiah" by the choral symphony society took place at Music Hall last evening. It would be no exaggeration to say that from every point of view the concert was the most successful in the history of the organization. When Director O'Brien, with his baton and evoked the opening strains of the overture every seat in the hall was filled and for half an hour after standing-room seats were sold. This was the first instance of the kind in the history of the organization and both the Director and Board of Managers were intensely gratified at the evident appreciation of their efforts in behalf of the music-loving portion of the public.

From an artistic standpoint the event was a distinct success, and it is pleasant to have it to say that the chorists carried off the honors of the evening. This should not be taken in any way to detract from the splendid work of the soloists. Repeated renditions of the solo parts of the singers familiar with the score, giving the leader an opportunity to bring out more finished effects than would be possible with a new production. The noticeable points were the purity of tone, the delicacy of shading and an admirable clarity in enunciation. The attacks were both sweet and vigorous, and the soloists were in perfect harmony with the chorus. "For unto us a child is born" came like a revelation to the audience and was greeted with a round of applause. The stirring "Lift up your heads" the sublime "Hallelujah" and the grand harmonies of the closing number "Worthy is the Lamb" were rendered equally well.

St. Louis, Mo., and New York furnished the soloists of the evening. Mrs. Lawson and Mr. Tunison are both from St. Louis. Mrs. Adele Laessle, who formerly lived in St. Louis, came from New York City. Her personal charms and great pleasure produced by her sweetness of voice and admirable method of singing. Her appearance after the concert residence East, created a great deal of interest. Her voice is a contralto of the highest quality, and her singing is of the most artistic and with much feeling. A plaintive quality in her voice added greatly to the effective manner in which she rendered the airs, "He shall Feed His Flock" and "He was Wounded for Us." Her singing was a surprise even to her friends. Smooth, sweet and admirably distinct in utterance, her voice rang out in the beautiful recitations and airs allotted to her. "Thy Name is Sweet" and "Hearken, O Shepherd of Israel" were given with dramatic intensity. Mr. Tunison, who made his first appearance last evening, was warmly applauded for his fine rendition of "Why Do the Nations Rage?"

A Misunderstanding.

The fine imposed in Judge Morris' court on Saturday last against the McMahon Belting Co., \$25 and costs, on the charge of refusing to allow an inspection of its boilers, has been stayed. In a previously published mention of the facts, Mr. P. Baggot, secretary and treasurer of the company, was erroneously reported as being personally the defendant in the case, whereas he appeared in court merely as the representative of the company in a civil proceeding in company with the Vice-President. From an investigation of the facts it seems that the affair grew out of a misunderstanding, augmented by the over-optimistic seal on the part of one of the employees of the Boiler Inspector's office. The McMahon Belting Co. was not unwilling to allow the inspection of their boilers, but asked as a favor that the inspection be delayed for a few hours from the fact that the company's business was so shut down, in order that their business might not be retarded. Judge Morris, it is said, imposed the fine on technical grounds, but stayed it as a matter of justice. It had been enforced, however, and a fine would have been taken. Boiler Inspector Burke on learning that the misunderstanding grew out of some little sharpness of speech approved of the disposition made and accepted of the company's wishes concerning the inspection.

TIMBER STOLEN.

Bald Knobbers Help Themselves to Public Property.

KANSAS CITY, Mo., Dec. 30.—The County Court of Jackson County, which received an offer of \$2 per acre for 3,000 acres school land held for the county's benefit in McDonald, Christian and Laclede Counties since 1856, sent an official down to that section to look over the lands. Wednesday he returned and reported that the tract of 1,000 acres in McDonald County, which had been sold to the county, had been cut off by the Bald Knobbers, who, it seems, have a happy disposition that prompts them to help themselves to almost anything they see that they don't have to pay for. In this case they have stolen a tract of 1,000 acres of school land and perhaps millions of feet of lumber and thousands of cords of wood.

As the growth of timber maturing on the land was all this county could look to for accruing profits from the sale of the school lands, the county should have held the property twenty years and then sold it. The county has been deceived by the Bald Knobbers, who have stolen the property and sold it to the county. After Thirty-Six Years.

LAPORE, Ind., Dec. 30.—After a separation of thirty-six years, Dr. Robert Rhea and wife were united here yesterday. In 1856 Dr. Rhea went to New Orleans on business that finally took him to the West Indies. In the meantime Mrs. Rhea heard that her husband was dead and removed to this city. Rhea lost track of his wife and only returned to this State a few years ago, settling near Anderson. Yesterday, while talking to a drummer at that place he learned that his wife was alive here, and hastened to meet her.

NO MORE FIRECRACKERS.

Their Discharge Will No Longer Be Permitted on 'Change.

Little business was done on the Merchants' Exchange to-day. All other large exchanges adjourn to-morrow, and the greater part of the time after the close of call was devoted to the discharge of giant crackers, the floor of the Exchange being misty with powder smoke as a result. This form of disorder will not be tolerated in future. Shortly before 1 o'clock Maria Collins, who placed the insurance of the Chamber of Commerce Building, called upon President Mason and informed him that should the building catch fire as a result of the pyrotechnic display, no insurance would be paid. The Floor Committee will in future strictly enforce the rules in this respect.

Among the Brokers.

There were no sales of mining stocks this morning, and few quotations were made. Granite Mountain was for sale at \$5, but there were no bids. Elizabeth could have been obtained at 40¢, with bids at 40¢. American and Nettie were 25 bid, 57¢ asked. To-day's clearances amounted to \$5,568,584; balances, \$28,750.

A Herald of the Infant Year.

Clip the last thirty years or more from the century, and the segment will represent the term of the unbounded popularity of Hostetter's Stomach Bitters. The opening of the year 1893 will be signified by the appearance of a fresh Almanac of the Bitters, in which the uses, derivation and action of this world-famous medicine will be lucidly set forth. Every body should read it. The almanac and astronomical calculations to be found in the Bitters, are always astonishingly accurate, and the statistics, illustrations, humor and other reading matter rich in interest and full of profit. The Hostetter Company of Pittsburg, Pa., publish it themselves. They employ more than fifty hands in the mechanical work, and more than eleven months in the year are consumed in its preparation. It can be obtained without cost of all druggists and country dealers, and is printed in English, German, French, Welsh, Norwegian, Holland, Bohemian and Spanish.
